The following action is in response to the amendment received June 15, 2006.

Examiner's Amendment

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

In claim 11, line 8, "fulcrum of the inclination" has been changed to – fulcrum of inclination --.

In claim 11, line 9, after "hole", a period, -- . --, has been added.

The above changes have been made to correct typographical errors that had not been previously noticed.

Allowable Subject Matter

Claims 1, 2, 4, 6-11, 14, and 16-22 are allowed.

Reasons for Allowance

The following is an examiner's statement of reasons for allowance:

The prior art of record fails to show or render obvious a centrifugal clutch as defined in claims 1 and 22, wherein the clutch weight includes five weight component members, three of the weight component members having a fitting hole for accommodating a pin serving as the fulcrum of inclination, and two of the weight component members not having a fitting hole.

The art of record also fails to show or teach a centrifugal clutch as defined in claim 11, wherein the clutch weight is formed of members each of which has one portion with a smaller specific gravity than another portion and wherein the clutch weight includes five members, three of the members having a fitting hole for accommodating a pin serving as the fulcrum of inclination, and two of the members not having a fitting hole.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Response to Amendment

The amendment to claim 11 overcomes the rejection under 35 USC 112, 2nd paragraph, set forth in the previous Office action. Accordingly, the rejection is withdrawn.

Claim 22 now distinguishes over the prior art as set forth above. Therefore, the rejection of claim 22 under 35 USC 103(a) set forth in the previous action is withdrawn.
